PROFILE

Computer Networking, Mobility and Security student at Pigier Benin (Calavi). Passionate about CTFs, web development and Cisco networking (CCNA). Methodical, rigorous and results-driven, I am aiming for a career in offensive cybersecurity and network administration.

EXPERIENCE & PROJECTS

SkyBook 2026

Flight search and booking platform (guest flow): Basic/Flex fares, seat and option selection, 15-minute no-payment hold with a unique SKY-XXXXXX reference. Server-side expiry with a real-time WebSocket countdown, analytics dashboard and Odoo 18 back-office. React 19 · TypeScript · Fastify · PostgreSQL · Docker.

OVL-MD-V2 2026

Multi-device WhatsApp bot in JavaScript / Node.js: message automation, custom commands, event handling. Containerized with Docker.

Urban_Taste 2026

Web app for culinary discovery: menu showcase, interactions and a responsive interface.

Network labs — Cisco IOS 2025 →

OSPF topologies (broadcast vs point-to-point comparison, DR/BDR election) and implementation of standard & extended ACLs on Packet Tracer.

CyberCup Indian Ocean — Team Edition 2026

OCOI · Team Hope229

International cybersecurity competition (1st round). Certificate of participation earned; web, enumeration and file analysis challenges.

EDUCATION
